

Risk Assessment Index

COVID-19 Risk Index

Risk levels for exposure vary based on four main factors:

Enclosed space

Duration of interaction

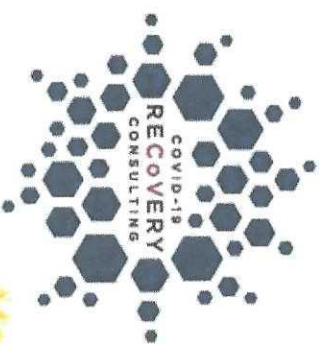

Crowds

Density of people + challenges for social distancing

Forceful exhalation

Sneezing, yelling, singing, and coughing

Low

Sleeping at home
All forms of sleep in the home, including in a hotel room.

Walking outdoors
Walks of 15 minutes or less.

Picking up takeout food, coffee, or groceries from stores
No contact with staff.

Running or biking
Aerobic activity outdoors.

Outdoor picnic or dining
No contact with staff.

Low / Medium

Playing "distanced" sports outside
Ex: Tennis or golf

Grocery shopping
Retailer makes clear contact; customer avoids high touch surfaces.

Retail shopping
Retailer makes clear contact; customer avoids high touch surfaces.

Medium

Visiting hospital emergency department
Make indoor contact; standing in line.

Medical office visit
Make indoor contact; high touch surfaces.

Dentist appointment
Make indoor contact; potential exposure of patient and waiting area.

Taking a taxi or a ride-sharing service
Make contact with driver; duration of ride; use of hand sanitizer.

Museum
Make indoor contact; standing in line.

Outdoor restaurant dining
Make contact; potential exposure of staff; standing in line.

Medium / High

Exercising at a gym
Make indoor contact; standing in line; high touch surfaces; high intensity activity; use of hand sanitizer.

Hair/nail salon and barbershops
Make indoor contact; high touch surfaces; use of hand sanitizer.

Working in an office
Make indoor contact; standing in line; use of hand sanitizer.

Indoor restaurant or coffee shop
Make indoor contact; standing in line; use of hand sanitizer.

High

Indoor party
Make indoor contact; standing in line; use of hand sanitizer; high touch surfaces; high intensity activity; use of hand sanitizer.

Bars and nightclubs
Make indoor contact; standing in line; use of hand sanitizer; high touch surfaces; high intensity activity; use of hand sanitizer.

Playing contact sports
Make indoor contact; standing in line; use of hand sanitizer; high touch surfaces; high intensity activity; use of hand sanitizer.

Public transportation
Make indoor contact; standing in line; use of hand sanitizer; high touch surfaces; high intensity activity; use of hand sanitizer.

Religious services
Make indoor contact; standing in line; use of hand sanitizer; high touch surfaces; high intensity activity; use of hand sanitizer.

Watching sports
Make indoor contact; standing in line; use of hand sanitizer; high touch surfaces; high intensity activity; use of hand sanitizer.

Movie theater or live theater
Make indoor contact; standing in line; use of hand sanitizer; high touch surfaces; high intensity activity; use of hand sanitizer.

Concert
Make indoor contact; standing in line; use of hand sanitizer; high touch surfaces; high intensity activity; use of hand sanitizer.

Air travel
Make indoor contact; standing in line; use of hand sanitizer; high touch surfaces; high intensity activity; use of hand sanitizer.

REOPEN INTELLIGENTLY. REOPEN SAFELY.

Low risk — no testing

Medium-High risk requires stratification and possible testing
